EnduroOptions
Solar Panel Cleaning Kit

☑ **10m Pole Hose**
Runs through the middle of your pole to ensure no snagging

☑ **Pole Hose Valve to Pushfit Connector**
Control the flow of water from the base of your pole

☑ **8mm Joiner**
Leave your pole in the pole when you pack up, saving you time before and after jobs

☑ **Wiel-Loc Angle Adapter**
Angle your brush head for the desired reach for hard to reach windows or back panels. 10" reach with ability to use on any brush socket or pole end

☑ **Wiel-Loc Swivel Adapter Arm**
Secondary arm with smooth pivoting, self-centralising action, enabling you to swivel your brush head to keep pressure on the glass evenly

☑ **Second Wiel-Loc Arm**
Secondary arm for attaching pads/scrubbers/scrapers/opposite your water fed brush. Simply turn your pole around when you need a more abrasive clean

☑ **Wiel-Loc to Universal Cone**
Connect traditional window cleaning tools to your water fed pole and angle adapter

☑ **12.5L Go H2O De-ionisation system on Compact Trolley**
New 'McLennan' head with ergonomkic handle and ports for multiple outlets

☑ **12.5L Mixed or Hard Water Blend Resin**
Premium, Themax resin to remove dissolved solids and dry spot free

☑ **7" 5 Micron Carbon Pre-filter**
To maximise resin exchange capacity

☑ **7m (23") Aero Control Kevlar Pole/Aero Edge Kevlar Pole**
Carbon fibre hybrid pole or 100% carbon pole for cleaning up to two storeys. Tough all-rounder with sections for everyday use. Featuring removable clamps and Kevlar wear pads under all clamping points. Reach up to three or four storeys with the Control/Edge 10m or 13m extensions

☑ **100m x 12mm Hose & Reel**
To connect to your pole hose. Premium reinforced, durable 12mm hose on a lightweight metal reel with removable handle

☑ **12" Alpha Shifter 308X Brush with 2 V-Jets**
Designed for maximum filament contact with the glass, a brush that works like a scrubbing pad

☑ **TDS Meter**
For checking the total dissolved solids reading of the input and output water. After running through the DI it'll be 0, resulting in no spotting on the windows or panels

☑ **Inline Pressure Gauge**
Sturdy metal gauge that will measure water pressure up to 150psi

☑ **Hose Leader**
To connect DI system to the hose reel
